“The acquisition of EMD will enable us to provide rail and transit customers an industry-leading range of locomotive, engine and emissions solutions, as well as unmatched aftermarket product and parts support and a full line of rail-related services and solutions,” said Progress Rail CEO Billy Ainsworth.

With 2009 revenues of \$1.8 billion, EMD has the largest installed base of diesel-electric locomotives in the world and offers the most extensive range of locomotive products in the rail and transit industry.

“We feel this is an ideal fit for EMD and our customers and we look forward to developing and providing an even greater portfolio of products and services for the rail and transit industry that we have proudly served for more than 85 years,” said John S. Richard Lubin, managing director of Berkshire Partners, added, “Our objectives coming in were to transition EMD to a strong, independent company focused on its customers, invest in EMD’s technology and capabilities and drive operational improvement. We are delighted Progress Rail will be the new owner of this business.”
